

## Improving Citizen Experience

# Online Application Submission

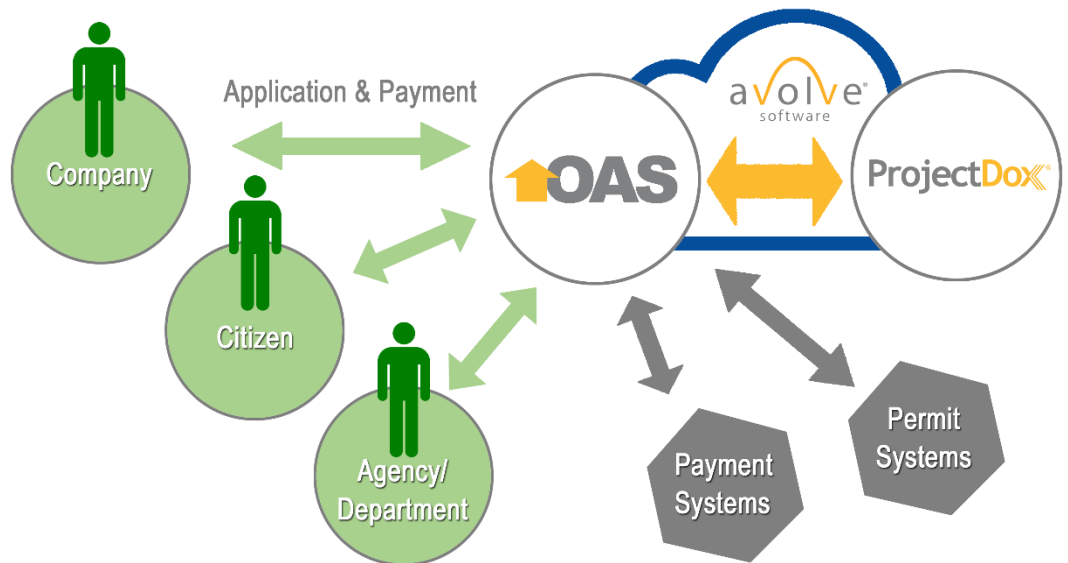

Enabling online permit applications and plan review is a critical electronic service in your community. Avolve designed OAS as a simple and friendly web application that makes it easy to submit permit and plan review applications directly via a jurisdiction's web site.

## Make it Easy for Applicants

OAS ensures your constituents a friendly, easy online experience right from the start. OAS intelligent forms guide the upload and review process and make it simple to:

- Intuitive application eForm entry
- Efficiently submit multiple applications
- Save time by using information from previous applications
- Ensure required plans, documents and data submitted per permit
- Auto-validate addresses
- Pay application fee

OAS expands on the powerful back-end workflows of ProjectDox® and brings further efficiency to the ePlan process. Serving as the front-end user experience, OAS provides streamlined online account registrations and profile management, so users can simply log into their account and select the proper application for submission. OAS gives jurisdictions an efficient way to conduct online business with customers, partners and internal staff.

OAS integrates with ProjectDox, permitting and payment systems.

# OAS Supports Your Goals:

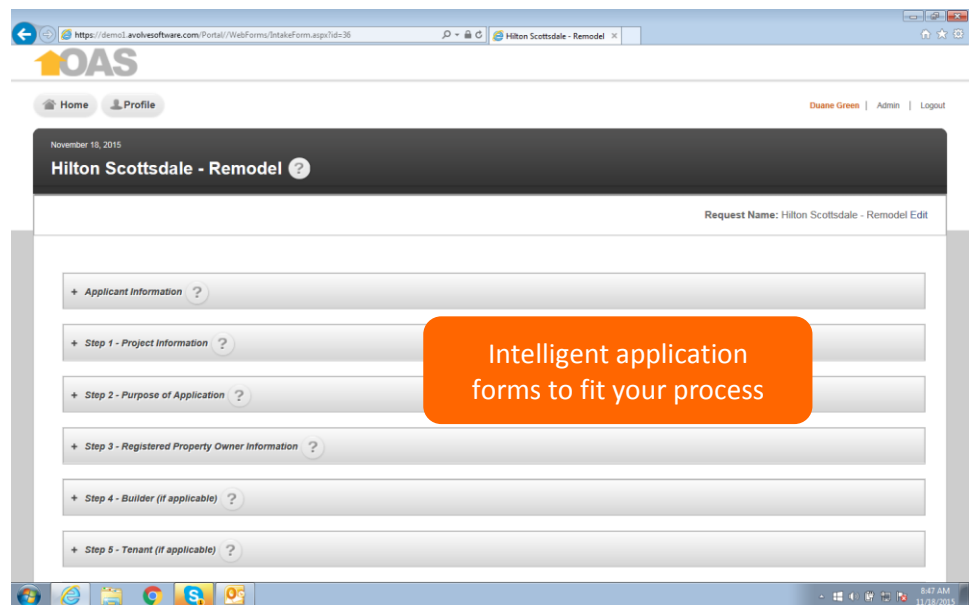

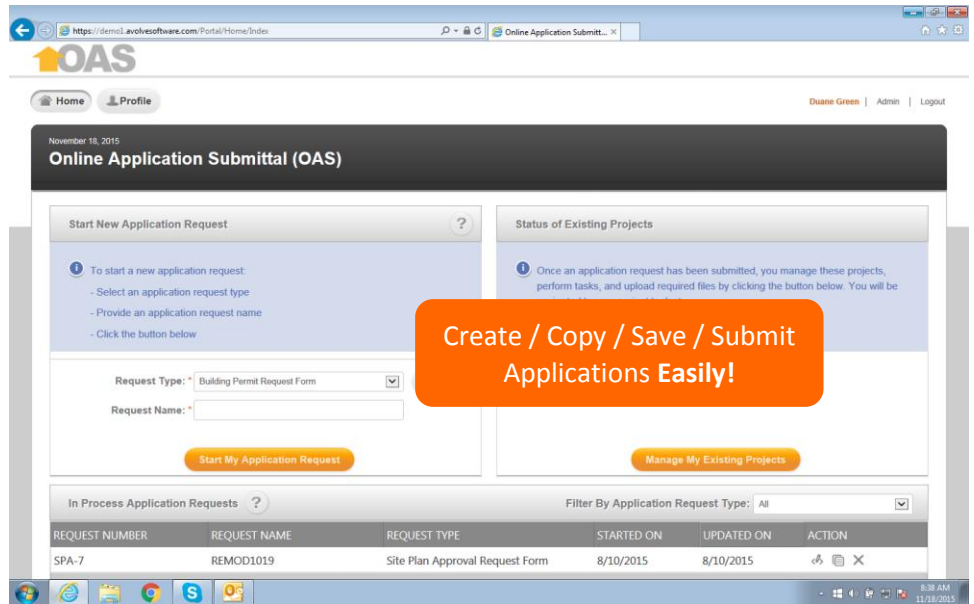

- 
**Customer Service Excellence**  
 Easy and seamless application submission
- 
**24x7 Citizen Services**  
 Self-serve web based citizen service
- 
**Accelerates Economic Development**  
 Speeds application process
- 
**Departmental Efficiency**  
 Streamline and automate submissions
- 
**Sustainable Environment**  
 Go paperless
