

# ePlan Life Cycle – Efficiency & Safety

**Avolve Software ePlan Life Cycle Software delivers process efficiency, better collaboration, improved citizen services, and accessible built environment records that can save lives and property.**

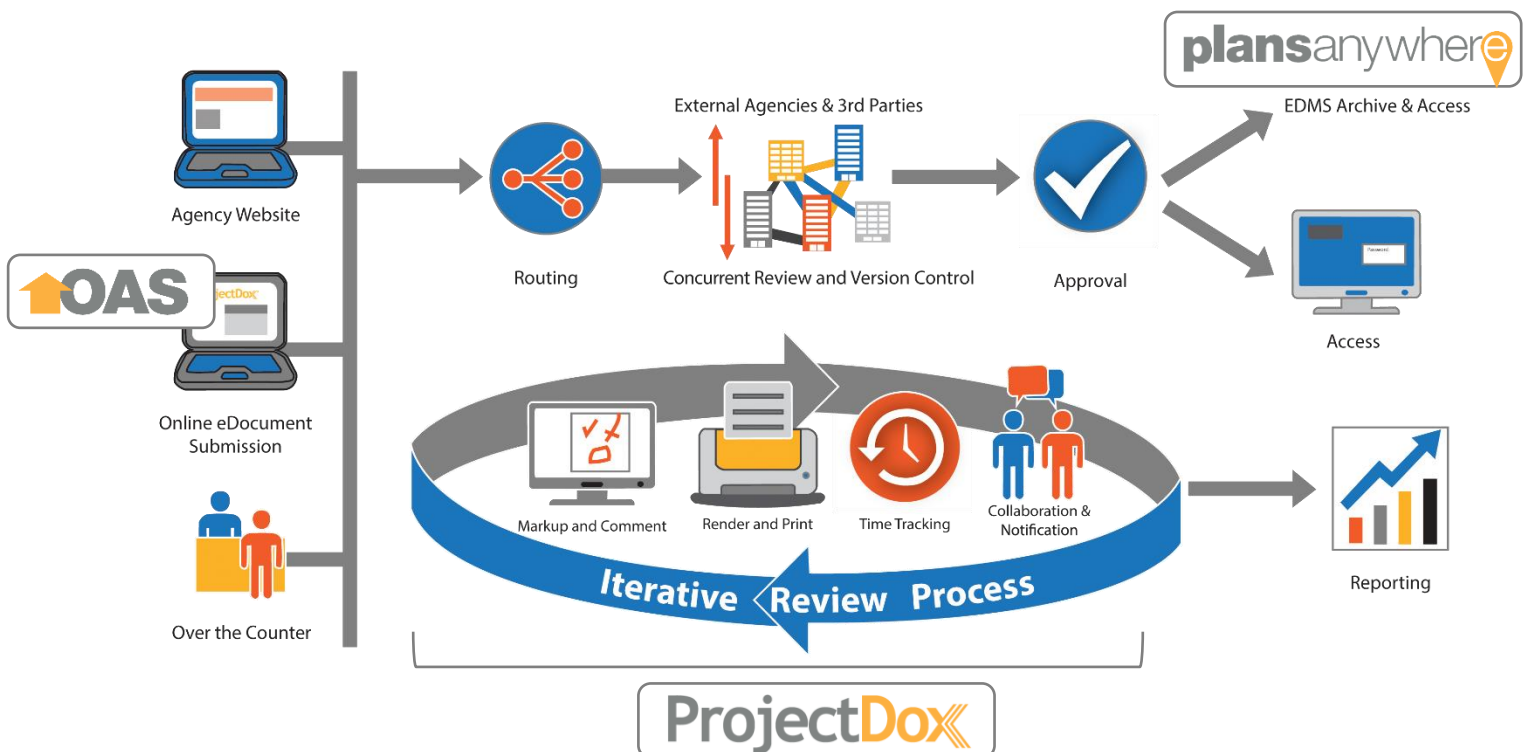

- ✓ Reduce citizen frustration and complaints
- ✓ Eliminate paper inefficiency, storage costs, lost plans
- ✓ Improve communication between departments
- ✓ Stop mistakes made from multiple PDF markup file versions
- ✓ Know what's built there for emergency response

## What is the ePlan Life Cycle and why is it important?

Quite simply, ePlan value goes far beyond the process efficiency gained with electronic submission, review and approval. With a full life cycle solution, your ePlan data is retained as a valuable asset - an accessible as-built record that enables better field inspections and emergency response.

## Managing the eDocuments Life Cycle

Avolve Software provides proven software to efficiently manage the entire ePlan Life Cycle process. From online application and file submission, to best-in-class ePlan review workflow processes, to field inspection and first responder accessible ePlans, eForms, and field captured pre-planning building/site information - Avolve Software is the right visionary partner for digital transformation of dated paper-based processes.

# ePlan Life Cycle - from submission to approval to accessible record.

## Improving Citizen Experience

This web application **simplifies submitting** permit and plan review applications via a jurisdiction's web site. OAS provides **easy online** account registrations and profile management that **applicants love**.

**Applicant Submission**  
Applicants/Developers

## Faster Permit Issuance

Jurisdictions gain **dramatic efficiency** in building plan approvals, thereby **creating jobs and revenues faster** - all while **servicing citizens** better and **assuring building safety**.

**ePlan Review/Approval**  
Plan Examiners

## Greater Community Safety

This mobile application **enables field access** to view all key site data related to a structure **by a geo-location**. Your **inspectors can do more** in a day, and that **improves community safety**.

**Life-Saving Accessible Record**  
Field Inspectors/First Response

### Online Application Submission

- Submit/retrieve multiple applications
- Verify all permit requirements
- Stay informed on review status
- Pay required permit fees

### ePlan Review

- Best-in-Class workflows
- Robust collaboration tools
- Hosted or on-premise
- Integrated with permit solutions

### Field Inspection Access

- Geo-Access plans, docs, images
- Add site inspection data
- Work off-line, sync on re-connect
- Cloud app-based solution

## Customers are saying...

"I have used all local jurisdiction's digital submittal processes and I have to say this was # 1 in ease of use, organization, and layout."

"We reduced review service from 7 to 3 days immediately after implementing ProjectDox ePlan technology."

"The new ProjectDox 8.6 release really hits a home run with features that focus on productivity, collaboration and customer adoption!"

"The new Quick Review ad-hoc workflow is killer; we can already see several ways to use it to communicate and collaborate with our applicants and improve customer service."

"Knowing what's built there, room layouts, exits, etc. can save lives in an emergency. Access what you need, when you need, as you need it – our inspectors love PlansAnywhere!"

"With OAS, our customers can create their account online, login and submit their permit applications and even pay fees through an easy-to-use portal, which in turn creates a ProjectDox project and assigns them a task to upload their plans and document for review – it couldn't be easier!"

Avolve Software offers the most trusted and proven electronic plan review solution in the marketplace. Over 150+ cities and counties in the US and Canada are using our solutions - and one in every five citizens live in jurisdictions served by ProjectDox.

Our suite of complementary products is designed to bring efficiency and ease to the process lifecycle of submitting, reviewing, approving, storing and accessing building plans and data in your jurisdiction.
