

Make it Safer!

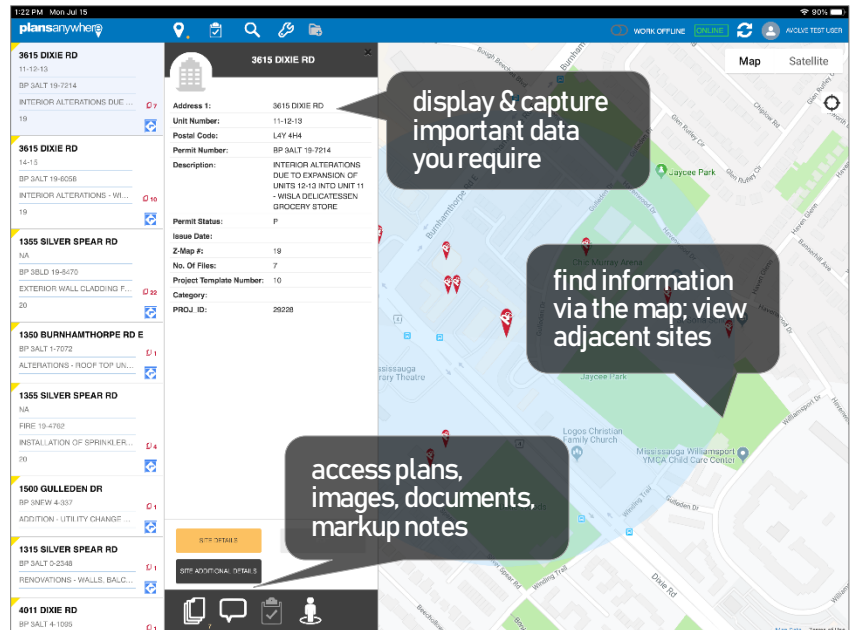

PlansAnywhere is a mobile device solution to access and update built-environment information in the community. PlansAnywhere uses mapped locations to store and retrieve information about projects – plan drawings, documents, photos, video, GIS and other data sources.

Having immediate access to important information in the field while performing inspections, responding to a crisis, or planning for the future improves the level of safety and quality of life in your community.

Know what's built there...

PlansAnywhere gives you the confidence to know you have the right data with you – anywhere!

- Geo-aware access to site/building plans, images, documents, more
- Create inspection markups
- Add site photos, voice-notes & video
- Site information (emergency contacts, etc.)
- Integrates to permitting and/or site response software
- Task scheduling and route planning

Field Access – Building Inspectors, code enforcement tasks.

First Response – Fire, Police, HAZMAT, disaster management access and inspection.

EHS – Environment, Health and Safety

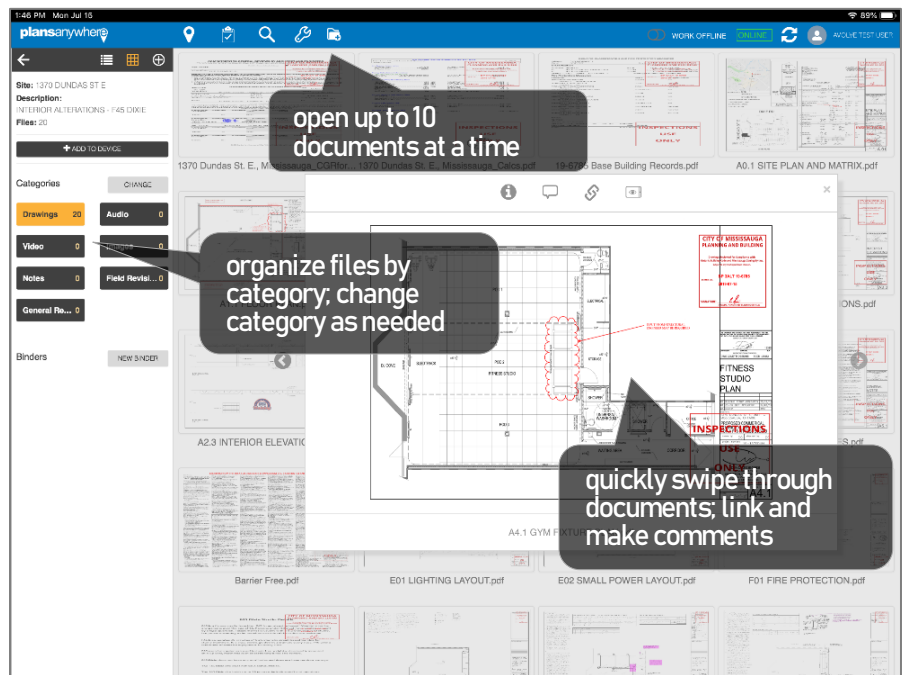

Online or Offline Access from Anywhere

PlansAnywhere Supports Your Goals:

- ✓ Greater Community Safety
better inspector efficiency
- ✓ Better Emergency
Response
Full site knowledge
- ✓ Built Environment
Awareness
Know what's built
where
- ✓ Clean and Sustainable
Environment
paperless electronic
data access and
storage

PlansAnywhere leverages the power of secure cloud storage, open data models and delivery technologies to enable field-to-office communication and collaboration to all required stakeholders. It is designed to allow for quick access to drawings and information originally approved and held in ProjectDox by extending information to the cloud where it can be easily accessed and stored. Plans are geo-located initially with Google maps.

***"Access what you need, where you need it,
when you need it. Our inspectors love it!"***

How can you improve safety in your community? When your inspectors have efficient mobile access to information, they can do much more in a day, improving the safety of the buildings and citizens in your community. When first responders have field access to site data, the response is faster and more informed - saving lives and property.

Our suite of complementary products is designed to bring efficiency and ease to the process lifecycle of submitting, reviewing, approving, storing and accessing building plans and data in your jurisdiction.

ePlan Life Cycle - From submission to approval to accessible record.
